BitDefender Internet Security 2008 provides all the security your Internet-connected family or small business needs. It provides comprehensive proactive protection from viruses, hackers, spyware, spam and phishing emails, and it also protects children from inappropriate websites.

INTERNET SECURITY 2008

Comprehensive Proactive Protection from Internet Security Threats

ANTIVIRUS & ANTISPYWARE

- Protects your PC in real time from known viruses, spyware and other malware with hourly updates
- Blocks unknown viruses using advanced proactive detection techniques
- Monitors and prevents spyware threats in real-time
- Detects and removes the newest breed of hidden threats known as rootkits
- Provides a smooth gaming experience by reducing the system load to a minimum

ANTI-PHISHING

- Protects against phishing attempts by filtering all accessed web pages
- Reduces the risk of identity theft by preventing personal information leaks via e-mail or web

FIREWALL

- Controls applications' access to the Internet while "hiding" your computer from hackers
- Helps prevent unauthorized access to your Wi-Fi network by notifying you when computers log in to the network

ANTISPAM

- Prevents different types of spam and scam e-mails from reaching your Inbox
- Now responds faster to new spamming techniques with new adaptive engines

PARENTAL CONTROL

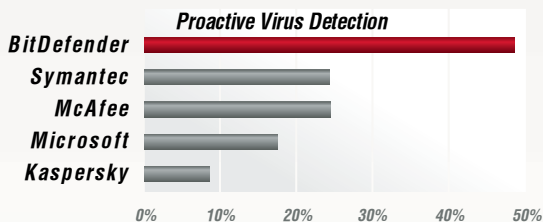

- Blocks access to inappropriate web content and e-mail
- Allows or blocks web access during specified intervals

Hassle – Free Hourly Updates

Hourly updates ensure that you are protected against the latest threats without pushing a button. Lost program files are not a problem either. In the rare event of file damage due to PC problems, BitDefender automatically repairs and updates itself.

FREE 24/7 Support

Got a question? Our security experts are available to help you 24/7 via phone, email or chat at no additional cost.

Using state-of-the-art malware detection technology, BitDefender provides superior proactive protection against new and unknown viruses, without the need for signature updates.

According to av-comparatives.org, June 2007
Heuristic detection with three month-old signatures.

New Gamer Mode

The new Gamer Mode temporarily modifies protection settings so as to minimize their impact on gaming performance, maintaining a safe, fun gaming experience.

System Requirements:

- Windows 2000 with SP 4
- Windows XP with SP 2 (32/64 bit)
- Windows Vista (32/64 bit)
